

## **1. We Will Grow**

Sat up on the dock  
Laughed upon the things we can't even remember  
But that doesn't really matter  
It was a good time  
We were breathing in the sun  
All I needed was to be with you in that weather  
Where our worries winded away  
On the greatest days

We will laugh  
Wherever we may pass  
Sharing these stories in each others arms  
We will grow  
Wherever we may go  
Holding our homes in each other's hearts

Sat up in the plane  
Waited on the warm horizon of this land  
Soon feel it when we land  
So much to see

We will laugh  
Wherever we may pass  
Sharing these stories in each others arms  
We will grow  
Wherever we may go  
Holding our homes in each other's hearts

So thanks for sharing this laugh  
So thanks for sharing this life  
So thank you for sharing your love  
With the world

We will laugh  
Wherever we may pass  
Finding these stories in each others arms  
We will grow  
Wherever we may go  
Holding our homes in each other's hearts  
Holding our homes in each other's hearts

## 2. Wait For You

Mama said that seventeen was too young to love a man  
Papa locked her to her room said he wouldn't ask your hand  
All the while he picked her roses  
Torn out pages of innocent poets  
He asked Mary could I still take you out  
They don't have to know  
He offered her some space  
Said I can't stand to see you go

Saying- I will wait for I will wait for  
I will wait for you my love

He said Marry you're my only love I would fight a war for you  
He stood there in his army green said i'm in love with you  
Your father he won't like this  
Your mother she may cry  
Marry will you marry me  
They don't have to know  
He offered her a charm bracelet  
Said come dawn I have to go

Saying- I will wait for I will wait for  
I will wait for you my love

Army (combat) boots showed up at her home one afternoon  
It was 4:00 just the time before family came back soon  
He held out a new charm  
This one of a heart  
Said Mary let me take you back  
It's the taste of that old diner  
Where he asked her for her number  
The summer they fell rooted in the grass

Saying- I will wait for I will wait for  
I will wait for you my love

### **3. She's More**

Her white dress drags  
The lane lacks her dad  
Cus at the end of it all at the end of the isle  
There's a woman that stands and she's worth her while

She says,  
Dad, you don't understand  
Mom, it's more than just a fantasy  
Do you believe your beliefs more than me

Her wife gives birth  
Still her dad he shows no worth  
Says, you're grandson arrived, take a look in his eyes  
Her father refuses says he's not mine

She says,  
Dad, you really don't understand  
Mom, she's more than a man  
Do you believe in your beliefs more than me

Her hands they shake  
More than her fathers take  
As he lays his last days, and he says his last words  
Sees her wife on the side, says the things he wished of her

She says  
Dad I really don't understand  
How you believed you're beliefs more than me

#### **4. Satisfied**

There's a painting  
Hung in your living room  
Said every time you saw it  
Gave a little more to assume

Close your eyes close your eyes  
It's alright it's alright  
Cus you were satisfied  
You were satisfied

Found your mother's mother's mother  
Then your father's cousin's son  
Traced all these places  
To see where we came from

Close your eyes close your eyes  
It's alright it's alright  
Cus you were satisfied  
You were satisfied

## **5. No Care**

Scorch your lungs with smoke and let'm burn  
Forget this world we choke take what you think you deserve  
Let the ash turn into you

It's a blue misunderstanding  
It's a blue misunderstanding

Gonna light it up, light it all  
Burn it up burn it all  
But you don't care  
No no care no care in the world  
Gonna light it up, light it all  
Burn it up burn it all  
But you don't care  
No no care no care in the world

No care  
No care in the world

Let your skin be shown to anyone who asks  
Distance yourself from emotions everything's become detached  
Let their skin turn to yours

It's a blue misunderstanding  
It's a blue misunderstanding

Gonna light it up, light it all  
Burn it up burn it all  
But you don't care  
No no care no care in the world x3

## **6. Never See Her Again**

Branches stretched out with hours and ridden with ice  
She sat by the dying fire left the wood in the white  
All the while death grew in her chest  
I will never I will never see her again

The worst part is I'm left to wait  
I can't go home till the funeral day  
Weightless air filters heavy in my chest  
I will never I will never see her again

It's in her so deep now  
Sickness she is weak now  
Life turns itself inside out  
Back from where we came she prepares herself

Branches stretched out with hours and ridden with ice  
She sat by the dying fire left the wood in the white  
I will never I will never see her again  
I will never I will never see her again

## **7. Michigan and Friends**

Packed my heavy winter boots  
Bought myself a ticket home  
Set out to laugh and cry to be as I was once before

Michigan and friends I'm glad we met again  
You've been so far, we were so close  
Michigan and friends I'm glad we met again  
When I came back saw why I had to go

We sang The Milk Carton Kids  
We sang "Michigan" 'Michigan's in the rearview now'

Michigan and friends I'm glad we met again  
You've been so far, we were so close  
Michigan and friends I'm glad we met again  
When I came back saw why I had to go

This time around I felt all those sunken words had settled down  
Everything changes we're familiar but strangers who left this town  
It's been a long time coming long time coming now

We walked that snow ridden road  
Fall had passed but I just let go

Michigan and friends I'm glad we met again  
You've been so far, we were so close  
Michigan and friends I'm glad we met again  
When I came back saw why

Michigan and friends I'm glad we met again  
When I came back saw why I had to go

## **8. Love And Take**

You can feel her waves pulsing through you  
Like she loved you  
Like she knew you  
Crimson lips caressed your skin  
Tempting tides  
Pulled you in

She left her lipstick  
On your neck when she kissed you  
The rush the heat  
Her skin so sweet  
She left her lipstick  
On your neck when she kissed you  
The rush the heat  
Her skin so sweet

Her touch made your chest heave  
Longing urges  
She seduced you she  
She laid you down on her ocean bed  
Took your breath  
Beneath the coral spread (Coral sheets were spread)

She left her lipstick  
On your neck when she kissed you  
The rush the heat  
Her skin so sweet  
She left her lipstick  
On your neck when she kissed you  
The rush the heat  
Her skin so sweet

You let her love you  
You let her take you  
You let her love you  
You let her take you  
You let her love you

You let her take you  
Love and take and take and take  
Take it all  
Love and take and take  
Take it all  
Love and take and take  
Take it all

She left her lipstick  
On my neck when she kissed me  
The rush the heat  
Her skin so sweet

## **9. I Forgot You My Dear**

Sometimes I forget  
Forget you were ever here  
And then I feel guilty  
I forgot you my dear

Sometimes I draw a blank  
When I try to draw your face  
Cause my it's been so long  
Pictures don't hold your frame

Is it in me  
Are you still in me  
Is it in me  
Are you still in me

Sometimes I forget  
Forget you were ever here  
And then I feel guilty  
I forgot you my dear

## **10. Home Again**

This old mining town  
Grew you up  
These pothole roads always being filled  
Always sinking back in  
Deep lakes  
Spread out through the pines  
Shallows days weigh more than time

Are you darling coming home again  
Are you darling coming home again  
Been gone so long  
Been gone so long

Further north  
Than most would dare to call home  
This old (mining) town  
Where you have grown  
The smoke stack  
Chokes back  
Nickel for your change  
To bad you left, you carry it with you anyway

Are you darling coming home again  
Are you darling coming home again  
Been gone so long  
Been gone so long

Are you darling coming home again  
Are you darling coming home again  
Been gone so long  
Been gone so long

## **11. Handle With Care**

I hate to believe in things I don't understand  
But I try to believe in me  
The long it takes just to find my shoes  
For a moment I thought I could make it bare feet

Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way  
Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way

Walls so old they're made out of brick  
Heavy the warn I built myself in  
The long it takes just to gain my ground  
I ask my compass north and it changes its direction

Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way  
Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way

One too many thoughts flood my meaning  
Trapped in different words that don't define me  
One too many questions I don't answer  
Love and likings as clear as black and blue

Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way  
Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way

Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way  
Why do I fold the box and ship myself away  
Do I have to label it they said it'd help me find my way

## **12. Elaine**

Your brother told you it's not something to be proud of  
How you wear those boots brown and tattered  
Your mother bit her pretty nails and took you shopping  
But you don't like superficial things  
And I will love you just the same (on elaine)

Father kissed your forehead you set off to study  
Knew it well you wouldn't come back to settle  
Your grandma took your hands in the airport  
Said I love you, but your time has come to go  
And I will love you just the same (on elaine)

I've been waiting on my girl and I'll see you soon  
We'll be laughing out in the pouring rain  
And head off to your lecture soaking  
I'll lend you my jacket and my name  
I will love you just the same (on elaine)

Oh Elaine oh Elaine  
Oh Elaine oh Elaine  
Oh Elaine oh Elaine  
Oh Elaine oh Elaine I will love you just the same

### **13. Disasters Draw**

Take it all  
Take it all  
Hang me up  
Hang me up to dry  
I'm this magnet of disasters draw  
Soon you'll leave

Call me yours  
Call me yours  
In my head  
In my head was it all  
I'm this magnet of disasters draw  
Soon you'll leave

Don't respond  
Don't respond  
Speak your mind  
Speak your mind would you  
I'm this magnet of disasters draw  
Soon you'll leave

And all the while I wait  
She shows up at your place  
And her pulse pulls you close

I knew you'd leave too  
Good to be true  
Knew you'd leave too x3

Take it all  
Take it all  
Hang me up  
Hang me up

## **14. Dirt**

Could crawl into bed and never get out  
Do all these things I've been talking about  
Everything's dense like i'm in this forest  
Trying to get out but I can barely move

This is getting heavy  
I can't carry the ache

My hands are covered in dirt  
Haven't changed this shirt since the other day  
Like fog blocking the sun I don't know north from south  
On this bed of leaves still the rocks stick out

This is getting heavy  
I can't carry the ache  
This is getting heavy  
I can't handle the strain

The river is shallow as my thirsty breath  
And feet are pressed to unsolid ground  
Only crawling further into myself  
And I'm yelling but nobody's letting me out

Out nobody's letting me out

I can barely move can barely lift myself  
I can barely move can barely lift myself  
Gotta get out  
Gotta get out of the dirt  
Gotta get out  
Gotta get out of the dirt  
Gotta get out

This is getting heavy  
I can't carry the ache  
This is getting heavy  
I can't handle the strain

## **15. Better Out of Love**

Told yourself  
You told yourself

Time was making you age  
Spoke great lengths, who you'd hold  
So maybe, just maybe  
Your better out of love

You had one foot out the door  
He offered you that ring  
Couldn't stand to start a war  
Took the gold love you swore  
Snow turned to spring  
The day was following

Told yourself  
You told yourself

Time was making you age  
Spoke great lengths, who you'd hold  
So maybe, just maybe  
Your better out of love

A last chance came to let him know  
None of it felt right  
Knew that you could still let go  
Another day is one too slow  
If he held you that night  
He'd hold you for life

Told yourself  
You told yourself

Time was making you age  
Spoke great lengths, who you'd hold  
So maybe, just maybe  
Your better out of love

You settle like snow  
You settle like snow  
You settle like snow  
It's cold  
You settle like snow  
It's cold you got nowhere to go

Now you tell yourself  
You tell yourself

Time wasn't making you age all that much  
Never lengths to the ones that would love  
So maybe just maybe  
Maybe just maybe  
You're not better out of love

## **16. Beneath The Bars**

I call on you my dear old friend for a reason  
Don't need to be strong, just have to feel something

I'm not okay  
Maybe if you knew you'd do something  
Or just watch me break

I sit inside my head  
Beneath the bars  
Beneath the bars  
Beneath the bars

You don't seem, to see through my smile  
But you see right through this Vodka like it's water

I'm not okay  
Maybe if you knew you'd do something  
Or just watch me break

I sit inside my head  
Beneath the bars  
Beneath the bars  
Beneath the bars

## **17. Be Mine?**

Comfort was the first thing I felt with you  
Like I could open up my world to you girl  
When we were just strange strangers  
I hate to get my hopes up  
Writing this long before I'll share these words  
Your smile lights something up  
Inside me I've never felt

I know valentine's day is over  
But will you will you be mine

Your eyes were the first thing I fell into  
You were talking me up in the warm coffee shop  
They spoke so true  
I hate to get my hopes up  
But you are worth falling for  
Laughter fills your words up  
Echos still though my thoughts of you

Just know I don't take these words lightly  
But will you will you be mine

All I want is just to hold your hand  
The world melts at my feet when I feel your skin  
You don't have to pretend just be yourself  
I don't want no I'm not looking for anything else

I know valentine's day is over  
But will you will you be mine

## **18. Already Left**

Light fills the air with dust  
And settles like her days  
In a cabin with a dirt road lane  
Youth hung up on her walls  
In paintings older than your mind  
Photos black and white that she lives inside

Your hand is on her beating chest but she's already left

Night falls cold with her skin  
The embers fade to ash  
And fix themselves from where they came  
The old rug smells like charcoal and pine  
From christmases of trees  
And warmth beside the fire's light

Your hand is on her beating chest but she's already left

You're vest is hung up on her hook  
The hardest you've ever done  
She demands a name  
She doesn't know her son  
She doesn't know her son  
She doesn't know her son

Your hand is on her beating chest but she's already left

## **19. Thicker**

You were chipping my ribcage  
Slowly breaking into my heart  
But then you stopped and you left  
The job half done

You left me weak and undefended  
My chest cracked  
But my bones will grow back  
You left me weak and undefended  
My chest cracked  
But my bones will grow back  
And this time  
And this time  
And this time thicker

Now my chest is only weak  
Littered with pieces you broke off  
See this is what it feels like  
Shallow bones  
Heavy breath  
You left  
You left me weak and undefended  
My chest cracked  
But my bones will grow back  
You left me weak and undefended  
My chest cracked  
But my bones will grow back  
And this time  
And this time  
And this time thicker

It's okay It's okay we can just be friends  
It's okay It's okay we can just be friends

You left me weak and undefended  
My chest cracked  
But my bones will grow back

You left me weak and undefended  
My chest cracked  
But my bones will grow back  
And this time  
And this time  
And this time thicker

## **20.The Great Divide**

I love you  
I don't know what that means  
But i'm trembling  
It's something I've been refusing to believe  
But I whispered it to my screen

I love that I know you  
But I hate that I love you  
It's so great  
It's so great  
I love that I know you  
But I hate that I love you  
It's so great  
It's so great  
The great divide

I miss you  
That's not how things should be  
When you're falling  
Said I wouldn't let distance break my heart  
Like I chose this

I love that I know you  
But I hate that I love you  
It's so great  
It's so great  
I love that I know you  
But I hate that I love you  
It's so great  
It's so great  
The great divide

I need you  
That's a little much to say  
Without you I don't know what I'd do  
I love that I know you  
But I hate that I love you

It's so great  
It's so great  
I love that I know you  
But I hate that I love you  
It's so great  
It's so great  
The great divide

My heart pumps yes for you my dear  
But my head my head whispers to end this fear  
My heart my heart pumps yes for you my dear  
But my head whispers to end to end to end this fear

I love that I know you  
But I hate that I love you  
It's so great  
It's so great  
I love that I know you  
But I hate that I love you  
It's so great  
It's so great  
The great divide

## **21. Salt and Mistakes**

You visit me like poetry  
Only when you feel a certain way  
You open my pages  
To medicate  
Your solitude

We're all made of salt and mistakes

I won't  
I won't drink you anymore  
You left  
You left me thirsty for more

Settle in my sheets but never stay  
I'm the last stop on a midnight train  
When you've got nowhere left  
You show up  
To my open doors

We're all made of salt and mistakes

I won't  
I won't drink you anymore  
You left  
You left me thirsty for more

## **22. Runners**

You said you're not a runner  
You walked away  
You walked away

If this finds you  
Just know  
Hope it doesn't hurt you  
Just know  
That I still miss you

You said you're not a runner  
You walked away  
You walked away

If this finds you  
Just know  
My mind still minds you  
Just know  
That I still miss you

You said you're not a runner  
You walked away  
You walked away

If this finds you  
Just know  
I knew you'd leave too  
Everybody does  
And I still miss you a little too much

You said you're not a runner  
You walked away  
You walked away

### **23. Make Your Own Luck**

The cobblestone streets of tuscanY italy  
Where she would strum her small guitar  
Singing songs of love and loss  
Her case sat open collecting coins  
One day a man sat across the street and stayed

She sang embrace what you have  
Change what you don't  
If you're lucky enough  
You know to make your own luck

He asked her "what would your worst fear be"  
Not spiders or the dark she said unfulfilled potential gets to me  
She said my pocket's full of chances but my mind's full of doubts  
If I were a betting man I'd say can't place money on uncertainty

She said embrace what you have  
Change what you don't  
If you're lucky enough  
You know to make your own luck

## **24. Long Road to a Beautiful Place**

Honey you're just getting started  
It gets so much better than this  
Looking in the mirror what it'll show in five years  
Better than this

Hey-eh  
You're gonna make it through the day  
Hey- eh  
A long road to a beautiful place

Honey you're just getting started  
It gets so much better than this  
Writing songs never good enough  
But you won't stop  
And they'll get better than this

Hey-eh  
You're gonna make it through the day  
Hey- eh  
A long road to a beautiful place

I don't know it all  
But I can tell you this  
You will surely fall  
But your feet won't split

Hey-eh  
You're gonna make it through the day  
Hey- eh  
A long road to a beautiful place

You will never give up  
You'll get back up again  
You will never give up  
You'll be your own best friend  
You will never give up  
You're stubborn you will mend

Hey-eh

You're gonna make it through the day

Hey- eh

A long road to a beautiful place

## **25. Kaleidoscope Eyes**

Remember when kaleidoscope eyes  
Didn't mean getting high  
Just to feel

Living in this box full of smoke  
I'll breathe myself broke  
Just to feel

Honey I'm just jealous  
You see the world like a child  
I've lost my visions I've lost my wild

Remember how we'd play in the streets  
Now we play in my sheets  
Just to feel

Honey my mattress is thin  
But I'll breathe you in  
Just to feel

Honey I'm just jealous  
You see the world like a child  
I've lost my visions I've lost my wild

## **26. I Don't Need You**

In the room In the ache In my head  
On the mattress on the floor Thinking of you  
Curtains are drawn I'm shaking  
Light lifted the dawn still left the dark

I miss holding you in my arms  
I'm still craving you

I don't need you  
I don't need you  
I don't need you  
I don't need you  
I don't need you  
I don't need you

At night the white snow keeps me up  
It's soft and cold reminds me of you love

I don't need you  
I don't need you

I'm fine  
I'm fine  
I'm fine  
I'm fine  
I'm fine

I don't need you  
I don't need you

## **27. Grace**

The roads are slick  
I wish I'd slip right onto the highway  
And drive and drive to you  
Blurry messes  
Of red lights and rain  
Settle on the pain on the window

This time I won't take away  
What distance has already tried to take  
In my bed I lie awake  
I won't rest until my chest beats into yours

It's five at night  
Heavy clouds block the light  
It's that time again  
You're in my mind again

This time I won't take away  
What distance has already tried to take  
In my bed I lie awake  
I won't rest until my chest beats into yours

I play the songs  
You thought I should hear  
Drums beating faster now  
But the words slow me down  
It's 1 AM  
You just woke up  
But I'm so sleepy now  
Wish we could talk all night

It's still raining here  
And I still miss you my dear  
It's still raining it's still raining It's still raining  
I still miss you I miss you I miss you

This time I won't take away  
What distance has already tried to take

In my bed I lie awake

I won't rest until my chest beats into yours

I won't rest until my chest beats into yours

## **28. Glass Half Used**

Liquor on her lips  
Your hands on her hips  
She tastes like water  
She tastes like wine  
But you're only thirsty  
When you're not fine

She's a glass half empty  
But your mouth is dry  
She tastes like crimson  
She tastes like wine  
But you're only thirsty  
When you're not fine

She waits like a bottle  
So break into her tonight  
All you want is cheap champagne  
All you got is nice wine

You're lying in lust  
Love wasn't enough  
Soon you'll forget drink up  
Baby drink up

Shes a glass too wasted  
You're a boy too naked  
She tastes like comfort  
She tastes like wine  
But you're only thirsty  
When you're not fine

You were so thirsty  
She's not so fine

## **29. Glass Half Used**

Liquor on her lips  
Your hands on her hips  
She tastes like water  
She tastes like wine  
But you're only thirsty  
When you're not fine

She's a glass half empty  
But your mouth is dry  
She tastes like crimson  
She tastes like wine  
But you're only thirsty  
When you're not fine

She waits like a bottle  
So break into her tonight  
All you want is cheap champagne  
All you got is nice wine

You're lying in lust  
Love wasn't enough  
Soon you'll forget drink up  
Baby drink up

Shes a glass too wasted  
You're a boy too naked  
She tastes like comfort  
She tastes like wine  
But you're only thirsty  
When you're not fine

You were so thirsty  
She's not so fine

### **30. Brick Wall**

You've got a brick wall  
Caving in on your chest  
Built it to high now  
Let me take it down

Piece by piece  
Day by day

If I could swallow him up  
And spit him out  
Like you do your mouth  
If I could go back  
And be someone else  
I'd be someone else  
To you

You've got a brick wall  
Caving in on your chest  
I'll build a brick home  
With my bare hands

Piece by piece  
Day by day

If I could swallow him up  
And spit him out  
Like you do your mouth  
If I could go back  
And be someone else  
I'd be someone else  
To you

Ohhh  
And I know and I know

If I could swallow him up  
And spit him out  
Like you do your mouth

If I could go back  
And be someone else  
I'd be someone else  
To you

Ohhh  
And I know and I know

### **31. Black Coal Coffee**

Black coal coffee and amphetamine  
You are what you eat  
Can't stay awake but can't sleep  
Lighting smoke signals, campfires all they see

Oh she's a forest fire  
She can't breathe  
Oh scared of her desires  
She can't leave

Smoulder and smoke black tops of trees  
Never seen so still  
Embers crack the only sound  
Piles of ash and branches brittle

Oh she's a forest fire  
She can't breathe  
Oh scared of her desires  
She can't leave

She's out she's out  
She's out of control  
She's out she's out  
She's out of control

She's out she's out  
She's out she's out

Oh she's a forest fire  
She can't breathe  
Oh scared of her desires  
She can't leave

### **32. You Don't Have To Stay Here**

Fall a fine time of the year  
Colours crimson and crimping  
Opportunities appear  
You don't have to stay here  
You don't have to stay here

The room carries a smell like you and my fears  
I don't know if i'd linger or leave  
I don't which is worse  
But I'm selfish I want you near  
You don't have to stay here  
You don't have to stay here

Ooooh  
Ooooh

Let me pack your bags  
You're leaving now  
It's best for you  
Wishing I could crawl into your suitcase  
Don't tell me you'll stay for me  
Don't tell me you'll stay for me

### **33. Wait For You**

I've been wasting all my time on you  
Darling I'll save it for the ride back to your place  
I've been tracing all these steps that we've been taking  
I've been saving all my time for you

They say it gets harder if I go  
I will get closer to coming home  
I will wait for you  
I will wait for you  
I will wait for you  
Till I come home

I've been watching the world go by and I still have my eye on you  
I've been saving all my time for you

They say it gets harder if I go  
I will get closer to coming home  
I will wait for you  
I will wait for you  
I will wait for you  
Till I come home

### **34. Unapologetic**

I'm learning to be unapologetic for who I am  
Don't need approval and i'm not asking

I'm sorry that I'm not sorry anymore

I'm learning to be unapologetic for who I am  
If that makes you uncomfortable then I won't be damned  
I'm sorry that i'm not sorry anymore

And I'm sorry that i'm not sorry anymore  
I'm not sorry anymore

### **35. Trade**

I was never an early bird  
But an owl who stays up late  
Sharing stories and writing songs about life

There's been good conversations  
There's been fun times  
I am always different  
When it comes down to the fight

And I ask myself would you trade me  
And I ask myself would you trade me  
For someone who's more the same

And I ask myself would you trade me  
And I ask myself would you trade me  
For someone who's more the same

### **36. The Secret Garden Of Decent Humans**

Set off for minnesota with my mind on you dear  
Winter wind shook the plane and the trees and everything in between

There's a garden a secret garden of decent humans  
After all this breaking, wasting, waiting  
Darling you deserve someone who's there for you  
You deserve someone who's there for you

As winter's blanket fell you said we live and learn from love  
You began to see gray skies as if they were the sun

There's a garden a secret garden of decent humans  
After all this breaking, wasting, waiting  
Darling you deserve someone who's there for you  
You deserve someone who's there for you

### **37. The Edge Of The Middle Of Nowhere**

Laced up in our coats we drove into the snow  
I was in the back seat tryin' to warm my toes  
Rocks on the side of the highway coated in frost  
As the sun fell down we thought that we may be lost  
We were on the edge we were on the edge of the middle of nowhere  
We were on the edge we were on the edge of the middle of nowhere

Well the snow was just a blanket in our dreams  
It turned into a blizzard like a wall like a boarder it seemed  
The car broke down and we were buried deep  
My guitar cracked and we thought that we would freeze  
We were on the edge we were on the edge of the middle of nowhere  
We were on the edge we were on the edge of the middle of nowhere

From town to town we'd play our songs again  
We'd only seemed to get offered drinks from Men  
The albums never sold tip jar was never full  
Said I thought you should know we drove through the snow and the cold  
We were on the edge we were on the edge of the middle of nowhere  
We were on the edge we were on the edge of the middle of nowhere

### **38. Pinecones**

As the sun went down  
You said to follow the shore line  
That life has a short spine  
There's nothing's for sure  
But for -- tonight you are mine

The river is shallow I am lost  
And I don't know my way home

As the sun came up  
You said you see yourself as bones  
Still you'd collect me pinecones  
On my back name little moles  
As moons and tell the stories of stones

The river is shallow I am lost  
And I don't know my way home

You said your build me a cabin  
Where the grass is green  
And the trees are tall  
We could walk the rugged shore line  
In the mornings of the early fall  
We could sleep all day  
And wander all night  
Wonder all night

The river is deep and I have found  
Here with you is my home

### **39. Once in a Blue Moon**

I know we're not together  
That our time was never right  
I'm still sorry  
That I won't visit you at night

Darling you're once in a blue moon a blue moon  
Darling you're once in a blue moon a blue moon

Shouldn't have slept in your sheets  
Friends can get too close  
I'm still sorry  
I should have just gone home

Darling you're once in a blue moon a blue moon  
Darling you're once in a blue moon a blue moon

You don't visit often  
I don't stick around  
Maybe that's why  
It's so special when you're found

Darling you're once in a blue moon a blue moon  
Darling you're once in a blue moon a blue moon

#### **40. Night Bus**

On Saturdays she stays out late  
Serving drinks and making tips  
Wishing not to dress this way  
She's walking on eggshells  
There's still rent to make

Night bus if you could take her home  
Untouched tonight  
She's seen enough of this town  
Enough of these clowns alike

Wrapped up in her rugged brown sweater  
You could barely catch a glimpse of her face

Night bus if you could take her home  
Untouched tonight  
She's seen enough of this town  
Enough of these clowns alike

#### **41. Last This Long (Song in 20 min challenge)**

When the day is done  
You're packing up  
We've had enough  
I'm sorry that i'm obsessed  
With perfection at every glance

My words will never be enough  
Though i try  
My hands can touch  
What wants to die  
I Wouldn't make much of a difference anyway  
Not since you started seeing gray

There's a tear in the fabric  
We can sit and talk  
But you've long given up  
No one else's thread  
Is strong enough  
To stitch us up

My words will never be enough  
Though i try  
My hands can touch  
What wants to die  
I make make much of a difference anyway

I can't help this if you don't mind  
I can't save what's fallen behind  
Darling I loved to love you all the time  
Maybe vows just weren't meant to last this long

My words will never be enough  
Though i try  
My hands can touch  
What wants to die  
I make make much of a difference anyway

## **42. If You Didn't Make It In Time**

I wish I was lost  
Then maybe you'd come looking for me  
I tie myself to the rocks  
Let the tide have its way  
If you didn't make it in time

Oooh  
Oooh

I wish you were gone  
Then maybe you'd be missing me  
I'd write you this song  
But you'd never hear these words  
If you didn't make it in time

Oooh  
Oooh

### **43. Alone**

Take out all the numbers  
Leave them on the rocks  
I'll tie up all my doubts  
And I'll hang them in my thoughts

The river never looked this nice  
I've never felt this safe alone

Oooh

Mountains never speak  
But the water reflects my thoughts  
If I all I did was keep em coming  
They'd get tangled up

The river never felt this nice  
I only catch this much breath alone

Oooh

I always like to notice things that no-one cares for  
I always like that  
I always like to notice things that no-one cares for  
I always liked breath

Oooh

#### **44. 4th Of July**

On the 4th of July  
When you fell from the sky  
I didn't understand what it meant for love to die  
So I pretend they're celebrating you  
On the 4th of July

On the 4th of July  
The men they drink their rye  
Wrapped up in wings that just wouldn't fly  
So I pretend they're celebrating you  
On the 4th of July

The fireworks leave stains behind my eyelids  
Shadows of light that linger in my mind  
Something so bright yet so far gone  
Thanks for being my light  
Fading away but never moving on

On the 4th of July  
You still light up my sky  
Could never forget you we never got a goodbye  
So I celebrate you  
On the 4th of July

## **45. Invisible Closet**

One two Three  
You'll never find me  
Four five six  
I'm best at this  
Seven eight nine  
All this time  
And when you reach ten

If you call my name and I don't come out  
Know that I first had to find it  
If you ask me how I dress so well  
I guess it's all that time in the closet  
It's invisible oh don't force me out  
No just let me take this time

This time in the invisible closet

One two Three  
I'll never find me  
Four five six  
Do I need a fix  
Seven eight nine  
All this time  
And when you reach ten

If you call my name and I don't come out  
Know that I first had to find it  
If you ask me how I dress so well  
I guess it's all that time in the closet  
It's invisible oh don't force me out  
No just let me take this time

This time in the invisible closet
